

Higher frequency signals, meet Trueform signal integrity.

33600A Series Waveform Generators

- 1 GSa/s sampling rate and up to 120 MHz bandwidth
- Arbs with sequencing and 64 MSa memory
- 1 ps jitter, 1/100th the jitter of DDS generators
- 5x lower harmonic distortion than DDS generators
- Compatible with Agilent BenchVue software

Higher frequency Agilent 33600A Series waveform generators with Trueform technology deliver unparalleled signal integrity. Choose from four models to accelerate even your most complex tests.
