

RC Helicopter

I need a small remote-controlled helicopter/drone project. Let me know the issue if this project was published in EFY.

Soory Shakti Kushwaha
Through e-mail

EFY: You may see 'RF-Controlled Aircraft' project published in May issue.

EFY Directory

I want to know the details of India's leading home automation companies including their names and contact details. I am planning to set up a business in modular switches, video door-phones and home automation and security systems. Do you have any directories or portals to get these details?

Sumon
Through e-mail

EFY: Yes, we have EFY directory available in print version (called EFY Yellow Pages) as well as online portal (www.ele2b.com). You can find relevant information from the portal by typing the exact product name in the search box and clicking Search button. For the print version, contact info@kitsnspares.com

Digital Image Processing

I have been reading EFY for the last few months. I want some articles on digital image processing using MATLAB and Arduino.

S.K. Khaja Vali
Through e-mail

EFY: Please see 'Colour-Sensing Robot with MATLAB' project published in February issue besides 'Building Image-Processing Embedded Systems Using Python' project in this issue.

Robotics Projects

I am a newbie to robotics and trying to learn the basics by myself. It would be a great help if you could publish an article providing step-by-step guidance for robotics using Arduino, Raspberry Pi or embedded system.

Very good customer care service! I just informed Customer Support team that the magazine I purchased from the market had missing pages. I got a new EFY magazine totally free with no shipping charges. Thank you EFY team!

Prasad Kirkire

EFY: Thanks for the appreciation!

❑ I noticed a typographical error on your cover page. The pound sterling symbol is £ and not # as shown.

Ajay Rao

EFY: Thanks for pointing out the error! We appreciate your eye for detail.

❑ Let me know the availability of any good books on batteries.

Subhadip Ghosh

EFY: We published some time ago a book titled 'Batteries' which includes carbon-zinc, lithium, lead-acid, fuel and nuclear-cell batteries, along with some charger circuits. Please contact info@kitsnspares.com or visit www.kitsnspares.com

❑ Please suggest me some projects based on MATLAB, LabView and microcontrollers for my final-year project.

Mak Mali

EFY: A list of MATLAB-based projects in EFY was published in Letters section of June issue. Please look up 'Dual-Priority Encoder Using LabView' published in July issue. Almost every issue of EFY now covers microcontroller-based projects. Contact info@kitsnspares.com for back issues.

'Spot An Error' Award Winners

In eStyle First Look section published in June issue, ThinkCentre E73z is introduced, which is currently not available in India and the specs are of ThinkCentre M73z instead of E73z. Also, the image shown is different from the one present on the Lenovo website.

Sridhar Bukya

In 'Quiz Game Controller' project published in July issue, the value of RNW2 is wrongly printed as 100E instead of 200E in the schematic Fig. 2.

Bhaskar Pandey
Through e-mail

In eStyle buyers' guide, published in June issue, under Asus Gaming laptop, it's wrongly printed as 3GD DDR5 Nvidia GeForce graphics card instead of 3GB DDR5 Nvidia GeForce graphics card.

Arjun
Through e-mail

EFY: You may look up Arduino-based robotic projects 'Namaste Robot With Voice' (April 2014), 'Soccer Robot' (January 2014) and 'Arduino Android Robot' (December 2013). You can purchase digital versions of these EFY issues from www.efy.in or the print versions from www.kitsnspares.com

Remote for Electrical Equipment

I want a remote control circuit that can control all domestic electrical equip-

Errata

In 'USB LED Light Cum Battery Charger' circuit published in July issue, please read the part number of T1 as IRF820A in Fig. 2 and parts list instead of IRFZ820A.

ment. Can you help?

Kokane Vivek
