

A Solid Foundation for Reliable, Safe and Practical Safety Compliance Testing

GPT-9000 Series Electrical Safety Tester

The GPT-9000 series safety tester incorporates several features including high stability, operational safety and the brand new appearance design. The entire series, with 500VA/200VA AC output capacity, is equipped with high-efficiency PWM amplifier to prevent any influence caused by input voltage fluctuation or distorted waveforms so as to ensure that a stable high voltage output will be provided while conducting AC withstanding tests to DUTs. The GPT-9000 series is designed to comply with various safety regulations such as IEC, EN, UL, CSA, GB, JIS, etc for meeting testing requirements of electronics or electricity appliances or components.

- 500VA and 200VA AC Test Capacity
- 240 x 64 Ice Blue Dot Matrix LCD
- Manual/Auto Mode
- Function Key for Quick Selecting
- High Intensity Flash for Caution & Status Indication
- Safety Interlock Function
- Zero Crossing Turn-on Operation
- Controllable Ramp-up Time
- True RMS Current Measurement
- Interface : RS-232C, USB Device, Signal I/O and GPIB (Optional)

Sweep Analysis of Stability of DUT After Reaching the Rated Testing Voltage

High Accuracy and High Resolution Testing Performance
