

Headphones from Sennheiser

For style and flexibility of movement with audio excellence

Sennheiser has launched three headphones for those who like to hear music on the go—PX 95 mini-headphones, rotatable neckband earphone PMX 95 and the in-ear PCX 95. These are optimised for MP3, iPod, iPhone and portable media players, and come with a 2-year warranty.

The sleek PX 95 mini-headphones provide a detailed stereo sound reproduction, while still being light enough to wear comfortably for hours on end. The slender steel headband is not only durable but also highly flexible for a proper fit. The headphone's ear-pad foam and quality fabric mesh enhances acoustics and the adjustable ear cups ensure a personalised fit.

The PMX 95 is a contemporary, urbane model with an ergonomic neckband for superior comfort and a secure fit. The single-sided anti-friction cable allows the wearer maximum freedom of movement while enjoying stereo sound on the go. The soft, rotatable ear cups are easily adjustable.

The PCX 95 is Sennheiser's first model of headphones with an in-ear neckband design. They deliver detailed, bass-driven sound with amazing depth and extension in an unobtrusive, easy-to-wear package. The single-sided anti-friction cable allows the wearer maximum mobility, and the included set of ear adaptors guarantees a perfect fit.

Price:
PCX 95: ₹ 5490
PMX 95: ₹ 4990
PX 95: ₹ 3990

MTS Introduces MBlaze Power Wi-Fi

For high-speed data connectivity with up to six devices

Sistema Shyam TeleServices has launched MTS MBlaze Power Wi-Fi which ensures that today's smartphone and tablet users never run out of battery and have constant access to high-speed Internet. It packs a 5200mAh battery bank which can fully charge a smartphone up to three times. It can provide high-speed data connectivity to up to six devices includ-

ing smartphones, tablets, laptops, smart TVs, gaming consoles on MTS' 3GPlus telecom network.

MTS MBlaze Power Wi-Fi comes with media-sharing capabilities, allowing users connected through Wi-Fi to share documents, songs, videos and pictures, etc. Users can store up to 32GB data on the power bank through a memory card.

Price: ₹ 2999

Intex Launches Multi-media Speakers

For loud and impactful music with special lighting effects

Intex Technologies has introduced a new range of colour-changing multi-media speakers. The SUF GLO series speakers are well suited for users who are fond of loud and impactful music coupled with special lighting effects to create a disco-like appeal at home. The newly introduced range includes three models—IT-5000, IT-2525 and IT-2575—designed to generate high-volume sound with sophisticated light show.

The SUF GLO multimedia speakers are optimised for superior experience in indoor or small outdoor surroundings to elevate the music experience of party hoppers. In addition to producing high-frequency beats, the series comes in combina-

tion with six multi-colour LEDs which glow as per power output generated by the speakers. All three speakers are compatible with DVD/PC/LCD TV and come in six equaliser options of Normal, Classic, POP, Jazz, Rock and Country to suit your mood.

For model IT-5000, the output Power is 20W + 3W x 5, impedance is 4Ω, speaker size/Watt for main unit is 10.2cm (4")/20W and for satellite 7.7 cm (3")/3W x 5, frequency response for main unit is 40Hz~200Hz and for satellite 200Hz~20KHz.

**Price: ₹ 2730 (IT-2525)
₹ 4300 (IT-5000)**
