CARIQ

Introduced with a motto of 'Simplifying cars,' CariQ is a smart, easy to use, plug-in device that makes car owning experience enjoyable and hasslefree by bridging the gap between you and your car. The 'SmartPlug' constantly feeds on the information that is provided by the car via the ECU. The collected data is then sent to the cloud where it is analysed and sent to the user in a format that is easily understood. CariQ helps you track your car's location and enables you to set geofences that once crossed will send you an alert on your smartphone. Overspeeding, rash driving and crash alerts are also provided, so that you know your car is in safe hands. You can now monitor your car's health and the battery levels of your car using CariQ's mobile apps. It also lets you share information about your car and your drives, with friends and family on social media.
