

DIGITAL CIRCUITS PVT LTD

Digital Circuits Pvt Ltd (DCPL) has been the technology partner for Electronic Hardware Corporation and serving in automotive, aerospace, medical, telecom, consumer electronics, instrumentation and electronic metering industries for nearly three decades with manufacturing facilities at more than 11 locations in India with more than 1100 skilled professionals. The company has TS 16949:2008, ISO 9001:2008 and UL certifications and has a clear focus on quality, cost and customer delight with regular practice of 5S, Kaizen and JIT.

The services provided by DCPL include PCB assemblies, plastic injection moulding, wiring harness, sheet metal fabrication, box building, new product introduction. The company is spread out in multiple locations including Bengaluru, Mysore, Chennai, Pune, Delhi, Baddi and Rudrapur.

SHANGDONG DIYI ELECTRONICS SCIENCE & TECHNOLOGY CO LTD

DIYI Electronic, established in 2006, is a renowned semiconductor components manufacturer. With profound discrete semiconductor components and processing technology and experience, the product range has extended to diodes and bridge rectifiers, thyristors and triacs, MOSFETs, transistors, parts for solar cell module and related peripherals.

Now DIYI Electronic is China's largest manufacturing company of MD type bridge rectifier. The product has a nationwide reach as well as overseas market including Hong Kong, Taiwan, South Korea, Germany, and India etc. The yearly production capacity is as follows:

- diodes: 20 billion
- bridge rectifiers: 30 billion
- thyristors/MOSFETs/transistors: 5 billion
- junction boxes for solar cell module: 1.2 million

Constant environmental-friendly approach and innovations constitute DIYI Electronic's basic policy. All products are complied with RoHS and REACH standards with SGS, TUV and UL certifications. With strict quality management certified in ISO9001, ISO14001 and TS16949, we have grown quickly and have become suppliers for renowned multinationals like GE, LG, Samsung, Diotech, and Panasonic etc.

DIYI Electronic serves customers in various industries including power supplies, lighting, mobile devices, home appliances, white goods, automatic machine, metering, and photovoltaic solar power station etc. As an expert in diode and rectifier segment, DIYI Electronic is committed to be a reliable partner supporting your business.

DRIVE TECHNOLOGIES

Drive Technologies has supplied world class equipments, materials and aids for the electronic industry in the field of circuit assembly, testing, cleaning and conformal coating. In the conformal coating space, the company ensures right material at the right time with thorough technical backup. Based on these credentials, the company is trusted by numerous large and small scale companies in India. The conformal coating from HumiSeal forms a focus area for their future growth.

HumiSeal is the originator of conformal coating. Formed in 1957, the company originally developed conformal coatings for the military and aerospace industry. With manufacturing in USA, UK and Japan, HumiSeal has global coverage to support both small local and large international customers. With a wide range of coating technologies, HumiSeal is able to provide protection solutions for electronics operating in almost any harsh environment. New developments include a range of UV cure products able to survive today's demanding automotive test requirements. HumiSeal is a division of Chase Corporation.

EAST WEST

East West is an ISO-9001 certified company incorporated in 1994. East West manufactures and exports wiring harness and trading electronic passive components for a wide range of industry verticals like automotive, telecom, electronics, white goods, instrumentation, UPS/Inverter, vending machines, elevators, PA systems, etc.

East West today is one of the leading wire harness manufacturing company in India, with manufacturing plants in Delhi, Gurgaon and Bahadurgarh. The company has already added in-house moulding facility for insert moulding with five new moulding machines at the Gurgaon factory.

The company supports and sources all major makes of connectors and custom made moulded cables. East West is also one of the largest Indian distributors of Molex Inc USA, one of world's leading connector manufacturer, for their entire range
