

Why us?: Following are some of the reasons the company is considered as the most preferred firm for acquiring wires:

- Matchless wires
- Competitive prices
- Timely delivery
- Fast customer care services
- Customer centric approach

Quality assurance: Being one of the leading wires importers and suppliers in the industry, Insulating Material Corporation lays special emphasis on the quality of the wires. Therefore, the team strictly procures the wires from only the certified and prominent vendors in the international markets.

INXEE SYSTEMS PVT LTD

INXEE Systems Pvt Ltd is an international technology-centric embedded systems and semiconductor services company with inherent focus on delivering design and development services in the aforementioned domains. The company has its country headquarters in Delhi-NCR while also having offshore offices to reach out to its global clients. Strong technical prowess in the domains of wireless & wired devices, medical electronics, industrial automation, defense electronics and consumer electronics, accounts for its timely delivery of best quality end-product solutions for its clientele. Clubbing together technology, talent, innovation and the highest quality standards to create outstanding products for our customers since 2010.

IOT technology R&D services

INXEE offers a broad spectrum of turnkey embedded solutions in design and development under the fields of semiconductor, PCB and software and system to its clients, in any of these domains, complete with its manufacturing, installation and maintenance services. The company's services span across individual hardware and software components to entire systems. The expert team is experienced in adding value within an existing project or start afresh a full development cycle engagement. The company's unique approach to innovation is centered on people and their necessities. From developing neo-natal body warmers that would help doctors better monitor babies in cases of hypothermia, to designing green building management systems for efficient utilisation of power resources, to acknowledging the vast spectrum of new ideas that IoT is bringing about, the basic approach is to help build a better connected and sustainable world to live in. Inxee is all about relentless combination of experience with expertise in technology.

Inxee also offers to connect with customers and clients directly through INXEEDIRECT, an exclusive online store where one can place an order, customise and re-engineer PCB boards, interface converter boards, and other electronic components. All the available products are categorically tabulated for ease in navigation through the website and an uncomplicated payment portal enables to make transaction simpler. We ensure best quality at economical prices.
