

Thermal Management Solutions

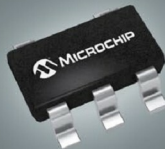

Comprehensive and Diverse

With over a decade of experience in designing thermal management solutions for industry-leading companies in the computing, consumer, and industrial markets, Microchip offers a breadth of expertise and an extensive product offering in temperature measurement and fan control. Employing the latest industry concepts such as resistance error correction, the transistor model with beta compensation and closed loop fan control for fan speed maintenance, our solutions increasingly improve measurement accuracy and save engineering time.

Typical Applications

- Temperature alarm
- Thermostat control
- Industrial applications
- Fan control
- Automotive
- Home appliance
- Embedded applications

India Sales Offices:

Bangalore (080) 3090-4444 • **New Delhi** (011) 4160-8631 • **Pune** (020) 3019-1500
