

battery back-up, and the development of such long-lasting battery technologies is being driven by the cellular industry.

Display. For field scenarios, wide, anti-reflective displays with day and night modes of operation are available these days. Another improved feature to enhance user experience is the additional touch-enabled screen control. Software-defined instruments also let you move the UI and display to post-PC devices, like smartphones and tabs. This provides superior display capabilities, gesture recognition and much more.

For harsh environments. Some models have increased safety, protection, durability and ruggedness, thereby making these ideal for use in harsh environmental conditions without compromising on performance, especially for aerospace and defence applications. Depending on the possible operating environment of the device, you might want to check if it has passed dust protec-

tion, liquid-ingression protection, explosion protection and mechanical impact-resistance tests.

Interfacing with other devices/programs. Another safety aspect is to separate the UI and display from the instrument by remote-controlling the device using a desktop, laptop, tablet or smartphone. This enhances portability and lets you take measurements in conditions unfavourable for humans without actually being present there. Devices like Anritsu's Network Master series and Keysight's FieldFox series have these features. Tektronix's RSA306 also has an open

What is new in latest handheld test-and-measurement instruments? Can these really take over benchtop equipment market in the next few years? Go through the Test & Measurement series of previous issue for more details.

API, which allows customers to use their own custom Windows based interface, such as MATLAB or Python, to manipulate raw data coming from the instrument. Rohde & Schwarz FSH spectrum analyser comes with interference-analysis application software (FSH-K15) that makes interference hunting easier. ●

KORE KEY OPERATION & ELECTROCOMPONENTS PVT. LTD.

AN ISO 9001:2008 CERTIFIED COMPANY

NEW Launch

LED Flood Light Fixtures
10W/20W/50W/
100W/150W/180W

LED High Bay Light Fixtures
50W/120W/
150W/180W

PHILIPS DRIVER
9W, 10W, 12W, 20W

- LEDs: High watt, SMD etc.
- LED Downlighters / Fixtures.
- Modules for Street Lights & Bulbs.
- LED BULBS-MR16, B22, GU10, E27.
- LED Modules, Rigid Strip, Strip Light.
- LED Street Lights/Bay Lights & Flood Light Fixtures.
