

Switch contact lubricants for superior performance

Our advanced contact lubricants provide increased reliability, enhanced electrical performance and extend the lifetime of switches, connectors and other current carrying metal interfaces by more than 300%.

Our development of domestic and industrial applications for the automotive, military and aerospace industries has led to range of contact lubricants with exacting standards and superior performance.

With a heritage that includes the invention of contact lubricants, we have spent over 70 years establishing an unsurpassed reputation for the manufacture and supply of innovative, industry leading specialist lubricants.
