

Google Chromecast Launched In India

From your smartphone or tablet straight to the TV

A thumb-sized media-streaming device, Chromecast plugs into the HDMI port on your TV. You can easily mirror your favourite entertainment and apps from your Android phone, tablet, iPhone, iPad, Mac or Windows laptop, or Chromecast to the big screen.

The device works with a large number of apps, including YouTube, Google Play Movies, ErosNow and Google+, among others. You can log into any website in Chrome on your laptop, and from your Android device you can mirror your screen to the TV.

Chromecast serves as a personalised remote control for your phone. You can use it to search and browse, play, pause, rewind, control the volume and even make playlists. And, even while doing all this, you can use your phone for other things.

It automatically updates itself with new features and apps all the time, to make the experience better every so often.
