

ARM Cortex-M0/M4 MCUs

Application: Auto Control System, Data Communication, Industrial Control, Security System, Communication system, Motor Control, Portable Health care devices, Mobile payment smart card reader, wireless Audio, Motion Gaming, IPTV Remote Control, Smart Home Appliances, Alarm & Security monitoring, Zigbee smart energy AMR, GPS data logger, Car ETC, Heat/water/Gas meter, Building control, RFID Reader, POS, Speech Air mouse, Remote/Game controller, Wireless Microphone, Walkie-Talkie, Voice baby monitor, Voice prompt, iPhone/iPad Android Accessory.

8bit 8051 MCUs

Application: Bar code Reader, Key phone, KVM 2.4G Wireless keyboard, IPC, Monitor, Security System, Communication Equipment, Alarm system, LCD TV, Motor Applications, Power Management, Temperature Sensor, iPod docking, Projector, DVD Player, E-Balance, Power Control, LED/Lighting, etc....

ARM7/ARM9 MPUs

Application: Network connectivity Devices, USB Connectivity, User interface devices, Industrial control such as POS, HMI, and IP Camera, etc....

ARM SoC N329 Family

Application: Educational Learning Aid, Video Baby Monitor, WiFi Camera and HMI (Human Machine Interface) applications, HMI (Human Machine Interface), Home Appliances and ELA (Educational Learning Aid) Applications, IP Camera, Video Baby Monitor, Home Appliance and HMI (Human Machine Interface) applications.

Application Specific SoCs

AUI Enabler, Adobe Flashlite Platform, BandDirector, NuVoice Series, USB Device, A/D Converter, Nu-Touch, I/O Expander, MFID & RF, PowerSpeech series, ViewTalk Series, Home Appliance, etc....

Audio Amplifiers IC's

Application: Smart Phones, Tablet PC, Docking Stations, Portable audio & video players, LCD, LED TV's and Toys.

Audio CODECs IC's

Application: Consumer, Telecommunication and automotive markets.

Audio Converters IC's

Application: Weight Scales, Industrial Process Controls, Strain Gauges, Data Acquisitions, Portable Instrumentations and Fluid/Gas Analyzers

Audio Enhancement

Application: MaxxAudio Algorithms on a Chip – NPCA110x chip runs "Waves Audio" professional grade algorithms, making it a single plug & play audio processor, which offers high end audio performance suitable for consumer electronics applications.

ISD Chip Corder Family

Nuovon Chipcorder is a complete, single chip solution for voice, audio recording and playback.

AUTHORISED DISTRIBUTOR:

**MILLENNIUM
SEMICONDUCTORS**

www.millenniumsemi.com

Corporate Office: 17/18/19, 2nd Floor, Mahalaxmi Heights, Mumbai-Pune Road, Pimpri, Pune 411 018, Maharashtra, INDIA.
