It's That Easy

Thumb-size Solution for Embedded Serial-to-Ethernet

Moxa Understands What You Need

Powerful Yet Cost-Effective
 Powered by the MiNe, Moxa's 2nd generation SoC, the MiNePort makes your device more powerful and cost-effective.

Lower Power Consumption
 Want to minimize the power consumption of your device while maximizing its strength? The MiNePort can help.

Design Flexibility
 As small as an RJ45 connector, the thumb-sized MiNePort maximizes your design flexibility.

NetEZ Technology
 Converting your serial devices to Ethernet has never been easier! Let Moxa's NetEZ technology help you!

Moxa Complete Embedded Module Solutions

RISC-based Embedded Core Module

EM-2260

4-port Embedded Managed Ethernet Switch Module

EOM-104

PC/104 Serial Boards

CB-108
