Mobile App for Real-Time Electric Meters' Readings

Mobicule Technologies together with Riverside Utilities has developed and launched its new mobile application msales Utility app. The app will ensure faster, smarter and authentic electric meter reading and billing system for the consumers. All the meter readers need is a smartphone with GPRS connection. They can note down the real-time reading, click the image of the same with geo-tagging feature and submit it to the server directly by clicking on the submit button.

USB Portable Charger from Sony

Sony India has launched its new CP-V3A USB portable charger with a capacity of 3000mAh. The device is available in six different colours and is priced at ₹ 1590. It contains Sony's lithium-ion battery and uses the company's own Hybrid-Gel technology. The technology allows the charger to retain 90 per cent of its capacity till 1000 charges. It gives a high output of 1.5A for a speedy charge.

Intex Launches New Smartphone

Intex has introduced its new Aqua i5 HD smartphone in the market. It sports a 12.7cm (5-inch) 720-pixel HD display and is powered by a 1.3GHz quad-core processor. It runs on Android 4.2 Jelly Bean operating system, which can be updated to Android 4.4.2 KitKat in future. The device also has a 13-mega-pixel camera on the back with LED flash along with a 5-mega-pixel front camera. Its 1GB of RAW and 4GB of internal storage can be extended using a micro-SD card. It runs on a 2000mAh battery. The device has been priced at ₹ 9990 and will be available in black and white colours.

Cubix Music Powerhouse that Fits in Your Palm

Produces very powerful yet pure sound

Portronics is proud to present Cubix, a compact and powerful speaker that is stylish and ultra portable. It is an extremely bag-friendly portable speaker that will make up for that distinct lack of audio quality that your devices' speakers cannot provide.

The sound output of Cubix is very powerful and pure. It not only amplifies the sound but also makes it more melodious and audible. So whether you are in the comfort of your home, a garden or in a hotel room, Cubix will give you pristine and clear sound.

Cubix offers great adaptability and can easily be played with your

smartphones, tablets, MP3 players, notebooks, desktops, hand-held gaming consoles, or any other audio-enabled device. The most unique feature of Cubix is that it needs no separate power source to run. Just connect the speaker to an Aux port of the device and you are ready to enjoy.

Cubix comes in three silicon casing colours of blue, orange and yellow. Being small, it can easily be accommodated in the palm of your hand, or fit comfortably in your pocket, purse or your laptop bag. The play time of the speaker in a single charge is more than five hours at full volume.
