

GAMING HARDWARE TO CHOOSE FROM

Gaming Laptops	Graphics Cards	Mouse
 Dell Alienware 17 ➤ Processor: 4th generation Intel Core i7 4700 MQ ➤ 8GB graphics card Price: ₹ 144,990	 Nvidia GeForce GTX 750 Ti ➤ 2GB DDR5 RAM Price: ₹ 11,850	 Razer Ouroboros Elite Ambidextrous Price: ₹ 9899
 Asus ROG G750JX ➤ Processor: Intel Core i7 4700HQ ➤ 3GB DDR5 Nvidia GeForce graphics card Price: ₹ 149,990	 Sapphire AMD/ATI HD 7770 ➤ 1GB DDR5 RAM Price: ₹ 7399	 Logitech G400 USB 2.0 Optical Price: ₹ 2099

and is still within your budget. The nVidia GeForce GTX 750 Ti is a good option that costs within ₹ 15,000.

Keyboards

Also part of a gamer's shopping list are gaming accessories, like mouse, keyboard and headphones. There are some brands, like Razer and Steelseries,

which are particularly associated with gaming. Compared to graphics card, these are much cheaper but, compared to your ordinary headphones, a gamer's gear still costs good money.

A gaming keyboard can cost anywhere between ₹ 1000 to ₹ 10,000. You would make a good investment with something like a Cooler Master Devas-

tator or a Logitech Gaming Keyboard G105, which cost between ₹ 3000 and ₹ 4000. On the other hand, if you have the budget, you can go for a Razer Blackwindow Ultimate 2013 keyboard, which costs nearly ₹ 10,000.

For a part-time gamer, the keyboard costing around ₹ 1000 to ₹ 2000 would do the trick. The only advice
