

GAMING HARDWARE TO CHOOSE FROM

Gaming Hardware To Choose From	
Consoles	Keyboards
 Sony Playstation 4 Price: ₹ 39,000	 Razer Deathstalker Ultimate USB Price: ₹ 23,000
 Microsoft Xbox 360 Kinect Holiday Bundle Price: ₹ 26,490	 Steelseries Shift USB 2.0 Price: ₹ 3999

we can give you is, buy online to enjoy good discounts.

Mouse

Many non-gamers do not understand the logic behind spending ₹ 3000 on a gaming mouse. Well, for a gamer, a good mouse, with easy-to-adjust DPI (dots per inch) settings, additional keys, etc is almost an imperative. The usual features of a gaming mouse include adjustable DPI settings, programmable buttons, acceleration, onboard memory and, in some cases, adjustable weight.

Out of the above-mentioned reasons, the first two are perhaps the most useful. DPI decides how much a mouse moves in relation to the movement of your hand. So, more the DPI, more it moves with less movement of the hand. So, if you play a lot of first-person shooters and are usually a sniper, then low DPI settings is what you would go for. High DPI would be useful if you have a large monitor and/or are playing fast-paced run-and-shoot games. Example: the Cooler Master Spawn, which costs ₹ 3000 and comes with 3500 DPI and seven programmable buttons.

Programmable buttons allow you to store key combinations. You can also use them as alternatives for keyboard keys. These are usually found in mid- and high-end gaming mice. A part-time gamer may often

compromise on this aspect in order to save money.

Headphones

Noise cancellation is the order of the day here. Most gaming headsets come with the noise cancellation feature, making sure that when you are playing, it is just you and your game; the entire world can take a number and stand in line.

Buying gaming headsets is really a matter of choice. You may want to spend ₹ 1000 or ₹ 5000, or even more on a headset. Alternatively, you may want to spend some more and get a good sound system, which helps you for other activities too. The choice is yours. Many gamers buy headsets for outdoor gaming, like when they are out in public or playing at a fellow gamer's place.

Also, headsets are really useful when you are chatting with other players on multiplayer games and taking or giving commands.

Conclusion

Gamers can really be divided into two categories—serious and part timers. Both make for big markets for the producers. If you are going to buy gaming hardware, the only worthwhile advice is to buy the best you can in the budget that you have. The task is much easier for a part-time gamer than it is for the serious ones. ●

SHAVISON™

Peripherals for Industrial Automation

Analog Timers

Types	ON Delay, Interval, Star Delta, Cyclic Timer, Forward-Pause Reverse, True Power OFF
Operating Modes	ON Delay, Interval, Star Delta, Cyclic ON first OFF, First Forward-Pause Reverse, True power OFF
Time Ranges	30 Sec, 60 Sec, 3/10/30/60 Sec/Min, 1/3/10/30 Sec/Min, 1/2/4/8 Sec/Min/Hr, 1/10 Sec/Min/Hr
Output Contact	# SPOT (1 C/O) # DPDT (2 C/O)
Contact Rating	5A @ 230VAC/24VDC
Supply Voltage	110VAC, 230VAC, 415VAC, 24VAC/DC, 20-240VAC, 12-240VDC

Hooters with Flasher

Size	72*72mm 96*96mm 144*144mm
Tone	2 Tone, 4 Tone, 110dB Output.
Flasher	With Flasher / Without Flasher
Accept Function	Push Button On Front and/or Terminals on Back
Volume Control	Yes, 10 to 100%
Supply Voltage	230VAC, 24VDC, 20-240VAC, 12-240VDC

Also Available

- SMPS(Din Rail Mount)
- Relay Interface Modules
- SSR Interface Modules
- FRC/ D-SUB connector
- Opto Interface Modules
- Diode/ Resistor Modules
- Power Distribution Modules
- Redundancy Modules
- Analog Signal Converters
- Dedicated Controller
- Products For Special Applications
