

Samples
of low cost
Colibri Vybrid
modules
available!

Powered by
NVIDIA® Tegra™ 3 and Tegra™ 2 SoCs

**Colibri
T20**

**Colibri
T30**

- ✓ Part of the versatile **Colibri (ARM based)** fully compatible product family
- ✓ Featuring **state-of-the-art technology**, the Colibri modules exemplify low power systems with high CPU performances
- ✓ **Colibri T30 - Quad Core:** ARM Cortex™-A9, Up to 1.4 GHz | **Colibri T20 - Dual Core:** ARM Cortex™-A9, 1.0 GHz
- ✓ Modules are also available in **industrial temperature** versions
- ✓ Equipped with a host of **advanced interfaces** needed in modern embedded devices - 12C, SPI, USB, UART, GPIOs, Ethernet, SD/MMC
- ✓ Comes with **Windows Embedded Compact 2013 & 7 and Linux**
- ✓ Free support provided **directly by Developers**

Automotive & Infotainment

- Car Infotainment
- Fleet Management
- Passenger Information Systems

Medical & Healthcare

- Patient Monitoring Systems
- Medical Aesthetics
- Physiotherapy Products

Laboratory, Test & Measurement

- Digital Weighing Scales
- Point of Sale (PoS)
- Oscilloscopes

Robotics & Industrial Automation

- Industrial HMIs
- Industrial Vehicle with Control
- Industrial Scanner or Printer
