Powered by Methode

Technology. Engineering. Manufacturing

From biometric identification utilizing the unique characteristics of human skin structure to magnetic signature sensing of mechanical and electrical properties; to the revolutionary solid-state touch sensitive switches used in today's appliances and automobiles, Methode's extensive toolbox of technical solutions help our customers differentiate their products and win in their end markets.

Our success, and the success of our customers, is a direct result of true collaboration, Methode's technology toolbox, an extensive product lineup and world-class global engineering, manufacturing and testing.

That's the power of Methode on your side.

Methode Electronics India Private Limited is a wholly owned subsidiary of Methode Electronics, Inc., providing the design and development support/ solutions to various business units of Methode.
