BenQ Launches Full-HD Gaming Monitors

Featuring exclusive Revolution Eyes technology for exceptional performance

BenQ has launched XL-Z series of first-person shooter (FPS) purpose-built gaming monitors: the 68.6cm (27-inch) XL2720Z and 61cm (24-inch) XL2420Z and XL2411Z widescreen full-HD displays.

Featuring BenQ's exclusive Revolution Eyes technology for exceptional monitor performance, the displays feature motion blur reduction, Low Blue Light technology, zero flicker, gaming refresh rate optimisation management (GROM), and 1ms GTG response times. In addition, the new models offer BenQ's latest

Price: XL2720Z: ₹ 37,500
XL2420Z: ₹ 32,500
XL2411Z: ₹ 30,000

sights of pro gamers and view the game the way a gaming legend would see it. This feature automatically adjusts monitor calibrations to provide users with optimal brightness, contrast, sharpness and colour tint.

Featuring Low Blue Light technology, the XL-Z monitors successfully manage the exposure of blue spectrum light emitted, resulting in more comfortable viewing. To help gamers protect their eyes during extended periods, the

monitors provide several adjustable low blue light levels that automatically adjust emission without affecting quality.

With the GROM management system, gamers also gain the freedom to custom-build their personal gaming experience according to viewing preferences such as refresh rates (100/120/144Hz), display resolutions and screen sizes.

Samsung's New Curved TVs with 4k Resolution

The world's first curved UHD television

Samsung Electronics has launched its Curved TV range in India. Amongst the devices showcased recently was the world's first curved UHD television.

With the launch of world's first curved UHD TV, Samsung is blending its innovative curved form factor with its UHD TV technology. Samsung's new curved televisions have four times the resolution and pixels of full HD, which means 4k resolution.

In addition, the TVs support HEVC, HDMI 2.0, MHL 3.0 and HDCP 2.2. The devices launched include the Samsung 105

Curved UHD TV, HU9000 Curved UHD TV, H8000 Curved Smart LED TV, HU8500 UHD TV and the HU7000 television.
