

Get hidden phone information

Dial **##*4636##*** on your Android phone and it will give you information about phone and battery as shown in Fig. 6. The menus might differ for different cell phones.

Get GTalk Service Monitor

Dial **##*8255##*** on your Android phone and it will open GTalk Service Monitor (Fig. 7). Google Talk Service Monitor in Android mobile phones will monitor Google Talk host address and port, your Google JID, your device ID, GTalk connection status, your connection history, your current GTalk presence (available, idle or invisible) and many other things such as GTalk heartbeat status.

Get IMEI number(s)

You can dial ***#06#** on your Android phone to get its IMEI number(s). You should always make a note of these numbers. In case your mobile gets stolen, you will need these numbers to

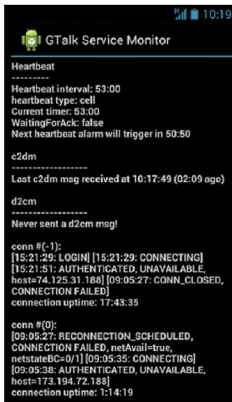

Fig. 7: GTalk service monitor

lodge an FIR in the police station. Fig. 8 shows a screen of IMEI numbers as an example. ●
