

## Five areas notified as brownfield EMCs

Five areas in Haryana, Maharashtra and Madhya Pradesh have been notified as brownfield electronics manufacturing clusters. These include Bawal tehsil and the Dharuhera sub-tehsil in Haryana; Mumbai (including Mumbai city district and Mumbai suburban district) and Navi Mumbai (including Navi Mumbai municipal limits) in Maharashtra and Raipur district in Madhya Pradesh.

With these notifications, the total number of brownfield electronics manufacturing clusters in the country under the Modified Special Incentive Package Scheme has now reached 35.

## Odisha gears up to implement ICT policy

In a bid to effectively implement the newly formulated ICT (information and communication technology) Policy 2014, the IT department of Odisha has asked its technical directorate, the Odisha Computer Application Centre, to formulate a project implementation unit (PIU).

The PIU will be responsible not only for implementing the ICT policy but also administering and facilitating several incentives or concessions, under the policy, for eligible units. The ICT policy aims to achieve a turnover of ₹ 240 billion by 2020, which includes exports of software and IT services, electronic system design and manufacturing (ESDM), domestic consumption and training. It will further provide direct employment to 60,000 professionals in 800 IT, ITes and ESDM units. It also plans to create a built-up space of 557,418 sq m (60 million sq ft) and develop 2000 acres to attract ten new leading IT/ITES firms and five ESDM companies.

## Indian industry's role in developing standards

Ajit Seth, Cabinet secretary, government of India thinks that the Indian industry has an important role to play in developing standards in India. Seth was delivering the inaugural address

## Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events
