BEL records a turnover of ₹ 61,800 million

Defence PSU Bharat Electronics Limited (BEL) has registered a record turnover of ₹ 61,800 million (provisional) for the fiscal year 2013-14 against ₹ 60,120 million during 2012-13. It achieved exports worth US \$41.70 million in 2013-14, registering a growth of 27.21 per cent over the previous year's export turnover of US \$32.78 million.

NTPC to commission three new solar power plants

State-run National Thermal Power Corporation (NTPC) is all set to begin commercial operations at its three new solar power plants soon. The company, which will begin production in all the plants simultaneously, will raise the total solar capacity to more than twice of what's available at present. The new solar power plants will account to 45MW of solar power.

Three M-SIPS technical evaluation committees formed

Three technical evaluation committees have been constituted under Modified Special Incentive Package Scheme (M-SIPS) to evaluate whether the proposed technology is state-of-the-art or not. These technical evaluation committees for products under MSIP-S are in electronics manufacturing services, medical electronics, telecom, nano electronics, industrial electronics, consumer electronics, strategic electronics, electromechanical components, passive components, consumables and accessories and power supplies.

at the 'Standards Conclave: Role of Standards in International Trade: Challenges Opportunities and Issues' organised by the Ministry of Com-

merce and Industry and Confederation of Indian Industry. Seth observed that India does not have a standard-driven

An Indian industrial unit

culture and India's manufacturing sector has been accustomed to developing in an environment where standards have been lax. He called for appropriate legislation to be put in place to provide an instrument to notify standards.

Renesas Electronics sets up subsidiary in India

Renesas Electronics Corporation is setting up Renesas Electronics India Pvt Ltd, a wholly-owned subsidiary of Renesas Electronics Singapore Pte Ltd, in Bengaluru. As part of its expansion plan, Renesas is converting its India branch offices to a full subsidiary. Customers can expect a higher level of engagement and services delivered closer to their regional offices throughout India.

By providing dedicated local support via the new company, and with a focus on industrial and automotive applications, Renesas aims to increase its micro-controllers' share in India and expand its solution offerings with a rich lineup of kit solutions and reference boards to speed customer time to market.

Nokia cuts manufacturing at Chennai plant

Nokia has cut manufacturing at its biggest handset production plant at Sriperumbudur near Chennai because of an ongoing tax feud with the Tamil Nadu government. The tax department has filed a case with the Supreme Court (SC) of India claiming 300 million euros, following which SC has ordered Nokia to submit a ₹ 35 billion bank guarantee.

Overall production has dropped from 13 million handsets a month to just 4 million now. Production is getting diverted to other Nokia plants in Vietnam and China.
