

Motorola Launches the Stylish Moto 360

A watch that tells time and much more

Moto 360 stays true to the timeless form of the classic wrist-watch. A round design maximises the display area while ensuring a comfortable fit, so you can get the information you want conveniently on your wrist. The watch responds to your voice with voice control, which makes it easy to get things done, even when your hands are full. Just say 'Ok Google' and you can send texts, set a reminder, check the weather and even ask for directions.

Moto 360 is a classically-designed, modern timepiece powered by Android Wear. Comfortable, familiar and crafted with the finest materials, Moto 360 keeps you up-to-date without taking you away from the moment. Glance at your wrist to see updates or just speak to get the information you need. You can also keep track of your steps and know your heart rate using a built-in pedometer and heart rate monitor. For now, Moto 360 is exclusively available on Flipkart.

The Smart LG G3 Stylus Debuts in India

The wait is finally over...

Finally bringing the premium Stylus experience to Indian consumers, LG launched the much-awaited LG G3 Stylus smartphone in India. The Stylus version of the G3 is a pen-enabled smartphone that inherits the core DNA of the acclaimed LG G3. The LG G3 Stylus, with its large display, stylus pen and LG's proprietary camera UX features, has a smartly priced package to go with it. The proprietary Rubberidium stylus pen that slides inside the G3

Stylus feels comfortable in any hand and complements the phone's 14cm (5.5-inch) large IPS display.

Jotting and sketching are easier and more precise when paired with LG's QuickMemo+ that lets users take notes or draw directly on images or maps. The stylus is compatible with a number of third-party handwriting and drawing apps. Optimised for various 3G markets' wireless networks, the G3 Stylus is offered in dual SIM with NFC capability in three colours: black, white and gold.
