

Low-Cost Android Tablet from Lenovo

One of the slimmest and lightest models available

Lenovo has introduced its new Android tablet S5000 in India. As of now, the device is exclusively available on e-commerce website Amazon India in silver grey colour.

Lenovo claims it to be India's slimmest and lightest tablet. The 17.8cm (7-inch) tablet is 7.9mm thick and weighs 246 grams. It is powered by a 1.2GHz MediaTek MT8389 quad-core processor and has 3450mAh battery, 1GB RAM and 16GB internal storage capacity. The device does not support external microSD card but has USB on-the-go connectivity to connect microUSB port (or via adaptor) equipped devices. It also supports Wi-Fi, 3G and Bluetooth.

The tablet sports a 5MP rear camera AF, 1.6MP front camera and runs on Android 4.2 Jelly Bean, which is upgradable to Android 4.3 Jelly Bean.

Gaming Laptop from MSI

Perhaps the thinnest gaming notebook available

MSI has introduced its exclusive gaming laptop in India, the GS60 Ghost Pro, which it claims to be the thinnest gaming notebook ever. It is available in three different configurations, GS60 2PE Ghost Pro, GS60

2PC Ghost and GS60 2PL Ghost. The biggest difference between the three is the dedicated graphic card.

The Ghost Pro series runs on Windows 8.1 and sports 39.6cm (15.6-inch) full HD, anti-glare wide viewing angle screen (1080 x 1920 pixels). It is powered with a fourth-generation 2.5GHz quad-core Intel core i7-4710HQ processor (8 threads, 3.5GHz

turbo frequency, 6MB cache). It features 16GB of 1600MHz DDR3L RAM on the top-end in GS60 2PE Ghost Pro variant and 8GB of 1600 MHz DDR3L RAM in the other two.

The laptop features full HD webcam, a full-colour backlit keyboard, 128GB SSD and comes with 1TB 7200RPM HDD with the top-end variant. It also supports 4x2W Dynaudio speakers with 7.1-channel, SPDIF output and Creative Sound Blaster Cinema 2.

For connectivity, the series includes 3xUSB 3.0 ports, 1xHDMI port, 2-in-1 card reader, microphone port, Bluetooth 4.0 options and Wi-Fi 802.11 ac.
