Apple iPhone 6, iPhone 6 Plus to hit Indian markets soon

Apple's iPhone 6 and iPhone 6 Plus smartphones will be available in India from 17th October. In the US iPhone 6 starts at \$649 and iPhone 6 Plus at \$749. iPhone sports 11.9cm (4.7-inch) screen and iPhone 6 Plus has a 14cm (5.5-inch) display. With iPhone 6 and iPhone 6 Plus Apple has made the thinnest devices ever. As iPhone 6 is powered by the new A8 processor, it is expected to be 50 per cent more energy-efficient. Both the models sport an 8MP iSight camera with face detection feature. iPhone 6 is also capable of capturing 43MP panorama photos. Users will be able to pay their bills on retail stores by simply tapping their smartphones on the payment terminals.

Nokia plans to bring cheaper 4G, 3G phones in India

Nokia wants to recapture the market position which it lost in 2012 to Samsung, it seems. While commenting upon its plans, Chris Weber, corporate vice president of Microsoft's mobile device sales told PTI, "We want to continue to push price points lower and lower than anything we have today. That's the statement for both 3G and LTE (4G) because that is the thing which gives us scale of the ecosystem." Sources reveal that Nokia has plans to launch latest 4G-enabled phone Lumia 830, priced at around ₹ 26,000, latest by October. One of the main reasons for the telecom operators not bringing out 4G network services in the country is the limited availability of affordable devices to access the 4G network.

Microsoft starts text search for audio and video content

A new range of media services has been started by Microsoft's Azure. One of these services makes it possible to conduct text searches of audio and video content. Microsoft has designed the tool such that you can search through video archives. It will also come handy for finding specific moments in media files. The tool is allied with a movie library, and it is expected that you will be able to search for a quote in a film. It can be transported to the moment in question.

Sony's Smartphone Xperia C3 Dual Launched

With the selfie-lovers in mind

Sony has announced the launch of Xperia C3 Dual smartphone in India for the selfie-loving generation. The phone runs on Android 4.4 and includes several software customisations from Sony like Xperia Themes support.

Sporting a 14cm (5.5-inch) 720p HD display, the smartphone is powered by 1.2GHz quad-core Qualcomm Snapdragon 400 processor, 8MP rear camera, 2500mAh battery, 3G support, dual-SIM support, 1GB RAM, 8GB internal storage and microSD card slot. Its unique feature is the 5MP front camera that is coupled with an LED flash. It also has a 25mm wide-angle lens with 80-degree field of view and 720p video recording support.

Wireless Shower Speaker from ENRG

For music lovers, even in the shower

ENRG has introduced its first wireless shower speaker M8 that gives you the freedom to play music, skip songs, increase/decrease volume and answer phone calls, even while you are in a shower. ENRG incorporates Bluetooth inside the shower head, in dual channel, so that one can connect to the music easily.

One of the most striking features of the speaker is that it is capable of receiving signals within 10 metres, thus providing a never-before musical bathing experience to its users. It can also be attached with the shower head and can be used otherwise as well. It has battery back-up of around 11.5 hours with the maximum output voltage of 5.5V.
