

Microchip 11th Annual INDIA MASTERS

Technical Training Conference for Embedded Control Engineers

MASTERS Conference is a bi-directional exchange of technical information between the technical work forces at Microchip and MASTERS is a highly in-depth conference, including hands-on technical training, structured to meet the needs of today's embedded control design engineers. Now in our 11th year, the India MASTERS Conference continues to arm system design engineers at every level with extensive product information and hands-on training to help you scale the learning curve and get your products to market faster.

This year we are offering 31 classes that cover a broad range of topics and are taught by Microchip's application and design engineers. Come learn from the same people who have designed the products you will use in class and walk out with everything you need to get up and running on your new design.

	Date	Venue
Bangalore	1-3 December, 2014	Le Meridien 28 Sankey Rd., P.B. No 174, Bangalore - 560 052
