

ROHM Semiconductor : Smart Solutions for Switching Mode Power Supplies

SMPS For All your Smart Applications Viz :
Set Top Box, CCTV, White Goods, Modem,
Router, Power- Bank

BM-2P-014

Salient Features :-

- Integrated High Voltage Mosfet.
- Support Upto -20Watts in DIP-7 Package
- Built in -650V Super Junction Mosfet for better Efficiency.
- Secondary over Current Protection
- 65KHz Operation with Frequency Hopping for better EMI/EMC Signatures.
- Low BOM Cost.

Evaluation Board Details :

Vin Range = 100V-300V AC, Vout = 12 V @ 1.5A, Ripple < 100mV p-p,
Efficiency > 85%, End Applications : STB/MODEM/CCTV/White Goods/Power Bank etc

ROHM Semiconductor : Wi-Fi Solution for wireless application

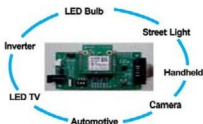

For all Applications Viz : LED Lighting, Home Automation, etc

Features of the BU1805GU series TCP/IP built-in WLAN include

- Built-in TCP/IP stack (IPv4); UART host interface facilitates communication; ARP/ICMP/DHCP/DNS client
- Selectable: Two communication modes, TCP server, TCP client, and UDP server;
- Maximum of 8 sessions (4 each TCP and UDP sessions) can be used simultaneously

Support :

- Remote setting using Web browser, Unicast (TCP and UDP) and Broadcast (only UDP)
- WLAN infrastructure and adhoc communications and WLAN security (WEP64, WEP128, WPA-Personal, WPA2-Personal, TKIP and AES)
- Power saving (power management compliant with IEEE802.11 and sleep under the ROHM's unique standards);
- Built-in received signal strength indicator (RSSI) acquisition and WPS (Wi-Fi protected setup) function.

Solutions Display at :
