EMBEDDED SYSTEM & ELECTRONICS DESIGN SERVICES

HIGHEST QUALITY & MOST ECONOMICAL

ISO 9001 Company, With 50 Man Years Of Professional Experience.

We Offer All The Services On The Product Life Cycle.

SERVICES OFFERED

- Product Specification Finalisation
- Microprocessor / DSP Selection
- Hardware Software Co- Design
- PCB Design
- Population Of PCB
- Flow Chart
- Firmware
- Pseudocode
- C Code
- Embedding The Programme On Target Device
- Device Drivers
- Design Verification
- Design Validation
- Production Documentation
- Technical Documentation
- Maintenance Of Existing Embedded System Design—Software as well Hardware

Special Skill Set In ARM, Microchip, Freescale, TI Microprocessors and DSP and More Can Be Added To Suit Your Requirements

We Provide Dedicated Development Team As Per Your Requirement Off Site. We Provide Project Based Solutions, On Site Engineers, Off Site Engineers, On Site Services.

A Well Documented Procedure For Perfection, With Minimum Interaction Time & Resources.

SHIDORE MICROSYS
