

Top Your Semester With Impressive Projects

Kits'n'Spares Introduces Industrial Training Programme

Looking for a guide to help you create an impressive project for your degree/diploma course?

Kits'n'Spares' latest initiative is an attempt to help students develop exciting electronics projects. The programme is designed to ensure hands-on learning, and hence fulfils the goal of 'Industrial Training' too.

What YOU get...

- Option to select one project amongst many in the category you chose
- The chosen kit will be sent to you within 7 to 14 days
- FREE tool-kit to work on the project (soldering iron, flux, etc)
- FREE book that explains basics of electronics and provides 50 DIY projects
- FREE technical support through telephone, web-chat, forums, etc

Highlights...

- 100% project completion guarantee
- Students to get industrial training certificate on completion of the programme
- All projects have been tested at KnS labs, and proto-types are ready with us
- In case the project does not work, KnS will exchange the non functioning kit with a working and tested proto-type
- Option to attend workshops at Delhi to complete the project
- Option to gain hands-on experience in making your own PCB too

For more details, go to projectguru.kitsnspares.com or call at 011-26371661
