Android Market upgrades to Google Play

Google has upgraded Android Market to a cloud-syncing service that also includes Google Music and Google eBookstore under the umbrella of Google Play. Now you can download and buy music, movies, apps and games from Google Play Store.

Kinect Rush: A Disney Pixar adventure game

The newest Microsoft Kinect game, Kinect Rush, is a series of mini games based on popular Pixar animations: The Incredibles, Toy Story, Up, Ratatouille and Cars. The game pairs up the player with a familiar face from the movie and their first mission is to get to Linguini as fast as possible to warn him about the health inspector who is about to visit their restaurant.

No jailbreaking on BlackBerry products

Research In Motion has advised its customers against installing any jailbreaking tool on BlackBerry products. Jailbreaking extends the functionality of the device for users, but for manufacturers it is a security risk.

Annotate photos with Evernote's new app

Evernote's new app Skitch allows you to annotate photos, images and screenshots using different shapes, arrows and text. It is supported by iPad, Android and Mac devices.

Wireless Keyboard for Blackberry Tablet

RIM launches Bluetooth keyboard for Blackberry PlayBook

Research In Motion (RIM) has launched Mini Keyboard for Blackberry PlayBook users who would like to extend the functionality of the tablet and use a physical keyboard instead of the on-screen keyboard. The keyboard enables users to view the full screen while using the tablet.

The keyboard features a touchpad with multi-touch functionality.

It comes with an in-built battery pack, and uses 128-bit encrypted wireless connectivity over Bluetooth. However, the encryption is supported only by PlayBook. The battery life is 30 days. The convertible case lets users carry the tablet with the keyboard.

LED TV with 17mm Narrow Bezel

Powered by Regza engine for life-like picture quality, Toshiba's PS20 also offers playback of 28 video formats

Toshiba PS20 LED TV with a 17mm narrow bezel ups the fusion of elegance and superior TV viewing. It supports playback of 28 video formats, which can be seamlessly enjoyed, whether they are on a USB drive or an HDD. The REGZA Engine technology offers vivid and vibrant picture quality, with significantly improved colour accuracy. The Power Meta Brain image processing engine ensures crisp, high-resolution images.

The 10-bit video processing power of PS20 maintains the 10-bit quality of input data during video processing, which produces over one billion colours, resulting in more natural picture

creation. Auto Clean feature reduces noise during transmission of images. AutoView monitors the room brightness and adjusts the backlight and various picture parameters accordingly.

The Toshiba PS20 LED Power TV is available in 32PS20, 40PS20 and 46PS20 models.
