Microsoft announces Office 2013 Suite for Windows 8

Microsoft's Office 2013 software suite for Windows 8 is designed to work with touch-based devices, styluses, as well as keyboards with ease. It will support social networking as well. Windows RT tablet users will get access to the Office Home and Student 2013 RT editions that offer the Word, Excel, PowerPoint and OneNote applications. The suite will work with ARM-based Windows 8 devices, which include Microsoft Surface.

Vuclip launches mobile video portal for women

Vuclip has launched a mobile video portal called Mira!, which is dedicated to women in India. The channel will provide free access to programmes covering various topics such as health, beauty, parenting, cookery, careers and entertainment. It is compatible with a wide range of handsets.

Tata DOCOMO announces new plans for BlackBerry

Tata DOCOMO has launched a new post-paid plan for the BlackBerry Curve 9320 and 9220 GSM users. As part of this scheme, subscribers will get 600 minutes of free local and national talk time, 600 free local and national text messages, and unlimited BlackBerry Internet service for a monthly rental of ₹ 600. But the catch is you will have to buy either of these handsets from Tata to avail the offer.

Nokia announces camera app

A new app called Camera Extras will soon be available to Nokia's Lumia range of smartphones. The app is expected to bring a decent set of options to the default camera on the Lumia smartphones. The app has been made available for Lumia users in the US and China initially. All Lumia devices are compatible with this update. The Lumia 610, however, will receive a slightly toned-down version of the app, according to the Finnish handset maker.

Monochrome Laser Printers

HP's new LaserJet Pro 400 M401 series lets users print from any Web-connected device from any location

Hewlett-Packard India has launched the LaserJet Pro 400 M401 printer series with touchscreen controls in India. The new monochrome laser printers target SMB, mid-market, enterprise and government customers.

The series has three variants: M401d, M401n and M401dn. These printers feature an 800MHz processor and 256MB memory. They provide network productivity for the office setup, and high-quality prints with a printing speed of 33 pages per minute (ppm).

e-Print technology lets business users print from any Web-connected device, anywhere. There is also a mobile printing solution that lets users print any files on their mobile devices remotely. A special feature called walk-up USB printing gives users the convenience of printing straight from a USB flash drive, using the easy-to-access USB port.

Price: M401d: ₹ 22,194
M401n: ₹ 25,920
M401dn: ₹ 32,724

TV Recorder

AverMedia's AVerTV Box PVR records your favourite TV shows to an external USB hard drive

AverMedia Technologies has come out with a standalone TV recording box to be used with a TV set or PC. The AVerTV Box PVR (A229) features direct file recording to USB hard drives, scheduled recording and TimeShift. With the useful Timeshift

function, you don't miss any scene of your favourite show: You can pause live TV, play from exactly where you left off, skip the ads, jump to the live broadcast and even replay the breath-taking moments!

What's more, it is equipped with 3D Y/C separation technology that ensures superior video quality. Besides TV recording, it can also be used to preserve your favourite video from various external source devices through the Composite interface.

The product comes with a warranty of two years.

Price: ₹ 8750
