QT200NXg

The Next Generation Mixed Signal Test System

HIGHLIGHTS

- ❖ Enhanced 10MHz Digital Test Speed
- ❖ Integrated Boundary Scan Test as per IEEE 1149.1 & IEEE 1532 standards for latest generation chips
- ❖ User friendly GUI based TestDirector6 Software
- ❖ Multiple Test Methodologies
(In-Circuit, Boundary Scan, Digital & Analog Signature Analysis & more)
- ❖ Card Edge Functional Test with automated guided probe back-tracking
- ❖ Advanced QSM-VI with auto "Best Fit Curve" algorithm
- ❖ VHDL based device library with 33,000+ devices

Applications

- ❖ Defence ❖ Aerospace ❖ MRO ❖ Telecom ❖ Railways
- ❖ Manufacturing Test ❖ Power ❖ Bio-medical ❖ Process Engineering

— where standards are set; not matched.
