HCL Technologies named outsourcing service provider of the year

The National Outsourcing Association (NOA) has named global IT services company HCL Technologies as Outsourcing Service Provider of the Year 2012. The announcement recognises HCL's contribution to a number of key areas, including its approach to innovation, strategy, best practice and governance and partnerships. Each of these areas was identified as essential for driving the industry further in an increasingly unstable economic climate.

Comviva recognised as the most innovative mobile VAS provider

Comviva has won three awards at the Aegis Graham Bell Awards ceremony recently held in New Delhi. Its mobility mobile payment solution, Hola! social networking app and managed VAS business model won top honours in 'Innovation in mCommerce', 'Innovation in Mobile App for Consumer' and 'Innovative Business Model' categories.

iGATE wins Golden Peacock Award

iGATE has won the 2012 Golden Peacock Innovation Management Award under 'Information Technology' category. The award, established by the Institute of Directors, aims to discover and recognise the capabilities of enterprises that build and leverage technological innovations, human capital and entrepreneurship for superlative customer value.

ZTE wins best broadband partnership award

ZTE Corporation and its partner Wexnet have won 'Best Broadband Partnership Award' at Broadband World Forum 2012 (BBWF) in Amsterdam. Since August 2011, ZTE has worked closely with Wexnet, a Swedish broadband operator, to build a network that allows end users to select their own service providers and content providers for Internet access, IP telephony and IPTV services using 'TCP Store' service.

Su-Kam to manufacture and market Gamatronic UPS systems

Su-Kam Power Systems has entered into a joint venture with Israel-based Gamatronic Electronic Industries to sell Gamatronic's industrial power backup solutions in India. Under the agreement, in the first 6-12 months, Su-Kam will distribute and service Gamatronic's products in India and later locally produce them at Su-Kam's facility in Gurgaon.

Commenting on this strategic tie-up, Joseph Goren, managing director, Gamatronic, said, "From a small

country like Israel, it is difficult to market to big markets like India and China. Su-Kam caters to a market of 1.2 billion population. Therefore this agreement will enable us to offer our cutting-edge products to the fast-evolving power solutions sector in India."

Su-Kam and Gamatronic are targeting a sales of Rs 500 million in the first year. "Once the JV is formed and local production starts, we expect to achieve

a turnover of Rs 2 billion in the next three years," informed Kunwer Sachdev, managing director and CEO, Su-Kam Power Systems.

PANTUM enters India

Printer manufacturer PANTUM has entered the Indian market with a focus on SOHO and SMB segments. Part of the Chinese group Seine Technology, PANTUM is said to offer affordable and environment-friendly printing solutions and services. In the initial phase of its entry, the company will focus sharply on the northern market—including Lucknow, Patna, Ranchi and Punjab—with a parallel focus on the Eastern market.

PANTUM aims to rank among the top five printer brands in India by 2015. It expects to cover 64 top cities in India by the end of this year and over 100 cities by the end of 2013. It plans to extensively use the IT channel to penetrate the market, beginning with 25 channel partners and about a thousand resellers.

PANTUM has appointed Rashi Peripherals as its first printing devices distributor in India.
