

ONLY INDIAN COMPANY

DESIGNED LED DRIVER IC

	AC - DC		DC-DC
	Isolated	Non-Isolated	
Wattage	1 to 72 W	3 to 30 W	1 to 30 W
PF	> 0.9 (Active PFC)	> 0.9 (Passive PFC)	NA
EFFICIENCY	> 80%	> 85%	> 85%
THD	< 15%	< 30%	NA

16V 4.5A 19V 3.42A 20V 4.5A 19V 3.95A 18.5V 3.5A 19.5V 4.74A 19V 2.1A

18.5V 4.9A 19.5V 3.34A 19.5V 4.62A 19.5V 4.47A 19.5V 3.9A 19.5V 4.7A 19.5V 1.5A

Available for all brands including Lenovo, Toshiba, HP, Dell, Sony Vaio, Acer, Dell Mini & others

Semtronics has SM3300 IC for Non-Isolated and DC-DC LED Light applications. To address higher end market & meet European market standards. Semtronics has SM6300, with Active PFC, Isolated and lesser THD solution supporting upto 100Watts. Semtronics also working on IC solution for CFL market to reduce the failure rate. This is expected to release in the market by January 2013.

Semtronics, a Bangalore based Semiconductor company designs series of Semiconductor IC's to cater latest market trends like LED lighting, Adaptors for Mobile's and Laptop's. This unique company started in 2010, by Young entrepreneurs, to focus on future renewable energy and LED lighting. Today, we have series of IC's. We at Semtronics, always look for innovation at the lowest cost.
