

Educational Electronic Kits

Here are some really good websites that sell electronic kits and components

kitsnspares.com

Kits'n'Spares is an Indian assembler and marketer of high-quality do-it-yourself electronics projects and hobby kits. The site has a huge variety of kits spanning technologies like robotics, RFID, GSM, ARM and VLSI. With the aim to become one-stop shop for design engineers, budding engineers, engineering colleges, training institutes and hobbyists, the site also provides electronic books, programmers, development boards and electronic components.

nerdkits.com

NerdKit is a combination of electronic parts and wisdom. The Nerdkit team believes that learning and understanding come from doing and experimenting, but only after reading and studying. A truly rich educational experience requires a mixture of meaningful topics, clear instructions and engaging projects. This NerdKits philosophy is all about education. The goal is to effectively teach basic electronics, and in doing so unlock the potential of a child's engineering prowess, a hobbyist's weekend dream, or just anyone with a do-it-yourself spirit and imagination.

electronickits.com

Carl's Electronics was founded in 1995 as an Internet-based mail order company. Since then it has continued to grow by creating fun and exciting projects for electronics students and hobbyists. The site has educational kits for hobbyists, schools, universities, government, and both small and Fortune 500 companies. The site is well organised.

sparkfun.com

SparkFun is an online retail store that sells the bits and pieces to make your electronics projects possible. No matter what your vision is, the products and resources are designed to make the world of electronics more accessible to the average person. In addition to products, SparkFun, through its Department of Education, offers classes and online tutorials designed to help educate individuals in the world of embedded electronics. The site offers products and components designed to help you unleash your inner inventor.
