

Jellybean-Ready Tablet Below Rs 6000

Zync Z-930 comes with a one-year pick-up and drop warranty

Zync Global has launched a tablet (Z-930) on Android 4.0 ICS that can be upgraded to the Android 4.1 Jellybean platform. Z-930 has a 17.8cm (7-inch) multi-touch capacitive screen with 800x480 pixels.

Powered by a 1.2GHz Cortex A8 processor with a Mali 400 GPU, the tablet also includes a primary 0.3MP camera. It supports 3G via a USB Dongle. Other connectivity options include Wi-Fi 802.11 a/b/g/n, HDMI port and a micro USB port. The 3600mAh Lithium-ion battery allows long hours of usage.

Z-930 comes loaded with a 512MB RAM and 4GB in-built memory, which can be expanded to 32 GB.

Multimedia Pocket Projector

Portronics' iLume provides a brightness of 400 lumens

Portronics has launched the iLume multimedia pocket projector in India. This LED-illuminated projector comes with built-in speakers and requires no additional sound magnification device for home entertainment use.

iLume is based on DLP technology from Texas Instruments. It weighs around 650 gm and provides brightness of 400 lumens. It can project images in sizes of 38-305 cm (15-120 inches) with projection distance ranging from 0.5 to 5 metres. Its resolution is 1280x800 and can also support 1080p/720p formats.

It provides connectivity ports to connect most devices, such as VGA/HDMI port to connect

laptops and desktops, AV port to connect set-top boxes, HDMI connector to connect tablets and smart phones, and USB connectivity to connect USB drives and play multimedia content directly without the use of laptops.

The life of iLume's LED engine is said to be more than 20,000 hours.

Dual-SIM Android Smartphones

While A21 sports an 11.4cm screen and 1800mAh battery, A9+ has a 10.2cm screen and 1420mAh battery

Karbons Mobiles has launched Smart A21 and A9+ smartphones under Duple series. Both the smartphones are powered by Android 4.0 Ice Cream Sandwich operating system and 1.2GHz Qualcomm Snapdragon dual-core processor. These also share several other features including 5MP auto-focus rear camera with burst mode and face detection, front-facing 1.3MP camera, dual-SIM support, 3G, WiFi, Bluetooth, and 3D gravity, proximity and light sensors.

The two models, however, differ in screen size and battery used. While A21 sports an 11.4cm (4.5inch) qHD

multi-touch capacitive screen and 1800mAh battery to power the phone, A9+ has a 10.2cm (4.0-inch) screen and a 1420mAh battery.

**Price: Smart A21: ₹ 11,990
Smart A9+: ₹ 9990**
