

OMRON

Sensing tomorrow™

Global Leader In Signal Relays

Features:

- Wide product lineup from type G6S, the standard relay in telecom market, to low profile type G6K, slim type G6J and low cost type G5V.
- Wide variation such as low coil power consumption with 100mW, high dielectric strength with 2kVA between coil and contacts, surface mount, and latching.
- Type G3VM, MOS-FET relays suitable for analog switching also available as well as electronic & mechanical relays.

Application Example:

Private Branch Exchange

Medical Diagnostic System

Electricity Meter

Now easily accessible with our enhanced distributor network throughout India!

India Liaison Offices:

Bangalore : Omron Electronic Components Pte Ltd
Unit No. 401-402, 3rd Floor, Prestige Atrium,
No.1, Central Street, Civil Station, Bangalore - 560001
Telephone : 91 - 80 - 67096406, 67096400

Gurgaon : Omron Electronic Components Pte Ltd
No. 108 & 103-106, 1/F, Sewa Corporate Park, MG Road,
Gurgaon (HARYANA) 122002, India, Tel : +91 124 4921700
