

SEOUL SEMICONDUCTOR CO.,LTD

small in size. BIG on efficiency

Z5 series is very small size (3.5*3.5*2.0mm), ceramic-based package, and large radiation plate make heat management easy.

Description

- The Z-Power series is designed for high current operation and high flux output applications.
- It incorporates state of the art SMD design and low thermal resistant material.
- The Z Power LED is ideal light sources for general illumination applications, custom designed solutions, large backlights and high performance torches.

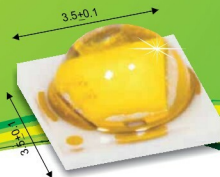

Features

High-intensity SMD LED's Z5M/P with a thermally optimized design for general lighting. Even available with a color rendering index(CRI) of 90.

- Super high Flux output & high Luminance efficacy upto 154lm/W
- Driving current flexibility: 350mA~1200mA
 - Designed for high current operation
 - SMT solderable
 - Lead Free product
 - RoHS compliant

Application:

- General Torch
- Architectural lighting
- Projector light source
- Traffic signals
- Task lighting
- Decorative / Pathway lighting
- Automotive Lighting
- Down Light / Bulb
- Remote / Solar powered lighting
