

marketing, manufacturing centres, development of the country as a sourcing hub and corporate social responsibility.

Both the manufacturing facilities in Chennai will cater to the growing demand of telecom network equipment in the domains of 2G expansion, 3G and LTE networks.

Nokia to create 500 new jobs in India

Finnish handset maker Nokia is planning to invest Rs 2500 million in India in the next three years, which will create around 500 jobs in the country. The company intends to do so through its manufacturing facility in a special economic zone (SEZ) near Chennai.

The company has sought permission from the commerce ministry for its revamp plan. The permission is required because the facility is located in the SEZ, which requires an approval for any business model modification.

Reliance to roll out 4G services in second half

Reliance Industries plans to roll out commercial broadband services in the second half of 2012 and is in discussions with cable companies and broadcasters to push content on multiple fourth-generation (4G)-enabled devices.

The company also plans to run exclusive content from broadcasters like UTV Software Communications, Zee Entertainment Enterprises and Multi Screen Media. It is even looking at getting content from Warner Bros India and regional broadcasters. The firm also plans to release a competitively priced tablet across 700 cities and some ultra-cheap data plans.
