

UTL बोले तो... Urs True Love

My **UTL** UPS

URNS FREE

yet continues to save big on power

Wonderfully so, my UTL newGEN 10KVA PFC UPS consumes almost half the energy while keeping me at work. In comparison to an SCR based UPS, its phenomenal saving is more than 4 KVAH per hour, which is neat 40 Units a day for a simple 10 hours of work that delivers me a saving of 12000 units a year. Well, knowing the commercial price of Rs 5 / unit I stand to save a whopping Rs 60,000 in a year. This has made my favourite UTL UPS almost 'Free' in just a year, while its advantage continues for more savings for the years to come.
