

VALUE LINE

FLY FAST FLY EASY FLY LIGHT

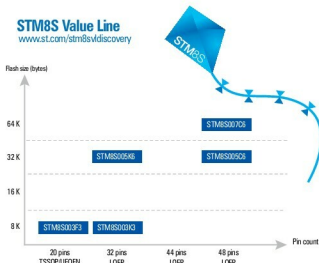

STMicroelectronics

The widest and most accessible range of Microcontrollers in terms of cost, development environment and performance

STM8S Value Line

www.st.com/stm8svldiscovery

Key Features:

- High Performance STM8 core with 16 CISC MIPS peak@16MHz CPU
- 20, 32 and 48 pin packages.
- Large set of Peripherals: UART, I2C, SPI, 10-Bit ADC, timers
- Fully compatible and upgradable with existing STM8S portfolio

You can also book your Discovery Kits at

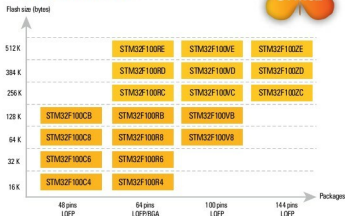

Distributors:

Aymer: +91-11-46481100, +91-9618001379, rajatshuvra.datta@aymer.com
Yosun: +91-11-45106900, +919810606001, ratnin_k@yosun.com.sg

STM32 Value Line

www.st.com/stm32-discovery

Key Features:

- High Performance ARM® Cortex-M3 1.25 DMIPS/MHz
- Advanced and large set of Peripherals: Up to 11 PWM 16-bit Timers including Motor Control
- Advanced analog with 12-bit ADC and DAC
- All devices pin-to-pin and SW compatible with STM32 family

STM8S Value Line Discovery Kit

Rs. 499

STM32 Value Line Discovery Kit

Rs. 649

STM8/STM32 Discovery kits, for a quick start for beginners or experienced users, with onboard ST-Link, real time debugger/programmer
