

# NI LabVIEW

Limited Only by Your Imagination

Custom human machine interface (HMI) applications for touch panel devices

Validated drivers for analog and digital sensors and actuators

Numerous communication drivers for easy system integration

FPGA-based design for safety-critical control systems

Real-time operating system for advanced control systems

RF

**Medical**

Robotics

Multicore

Using LabVIEW software and NI CompactRIO hardware, Sanarus developed the Visica 2 Treatment System on an extremely tight deadline, and today this revolutionary device is changing the way doctors treat breast tumors.

#### PRODUCT PLATFORM

NI LabVIEW graphical and textual programming  
NI CompactRIO embedded control hardware  
NI LabVIEW Real-Time Module  
NI LabVIEW FPGA Module
