DJ Headphones

Skullcandy's Mix Master headphones are serious enough for DJs and versatile enough for music lovers

Skullcandy's Mix Master headphones feature dual-channel cue control, when a single ear-cup articulate drives the entire mix to one ear. Other features include ambidextrous audio inputs so you can run the cord either right or left handedly. One-touch mute allows you to silence the sound to address the crowd.

The headphone also transitions seamlessly from club use to everyday listening, thanks to comfortable ear pillows and an interchangeable Mic3 cable.
