

WHAT MAKES YOUR DESIGN **LOWER** ON POWER AND **HIGHER** ON PERFORMANCE?

Find out from the experts.

Electronics For You's

EFY DESIGN ENGINEERS' CONFERENCE 2013

22nd February 2013 • Pragati Maidan, New Delhi

The world is looking for designs that are ultra-low on power and ultra-high on performance. Are you up to the challenge? Meet, interact and exchange ideas with the experts and other engineers like you who have the answers.

Hottest topics being discussed:

- Low-power Design: A combination of hardware, software and common sense
 - Power Optimisations for Android Devices
 - Step-by-Step design of A Low Power Application Circuit
 - Reducing power consumption in circuits with Example Cases
 - Multidisciplinary approach to enhance electronic innovations
- ...and a lot more!**
