

Industry Segments

Our products run out of the box. They are highly standardized, yet fully configurable and scalable in performance.

Colibri T30

NVIDIA Tegra 3
Cortex-A9 MPCore (Quad Core) / 1.0 GHz

Colibri T20

NVIDIA Tegra 2
Cortex-A9 MPCore (Dual Core) / 1.0 GHz

Colibri PXA320

Marvell PXA320
Intel XScale® ARM / 806 MHz

Colibri Evaluation Carrier Board

Salient Features of Our Products

- Up to 1.4 GHz, Cortex A9 Multi Core based NVIDIA Tegra CPU
- WinCE Instant Boot. World's Fastest Cold boot < 0.5 second
- Dual display with 1080p resolution
- NVIDIA GPU with 2D, 3D Hardware acceleration
- Long term availability (7 years plus)
- Backward-Forward pin compatibility within all Colibri modules
- Up to 200 pins available in our modules. Coming soon Apalis modules with 300 Pins
- Easy to customize & configure and use our OS image
- Very Low Power Consumption (0.35 - 3.0 W)
- Supported Platform (Till Windows Embedded Compact 7, Linux, Android)
- Up to 110 GPIOs, SPI, I2C, and all other peripherals are available
- Excellent support by our engineers within 24 hours
- IT temperature range also available
- All Software Library, Diagnostic Tools, Operating System Images, Knowhow and Hardware Design Datasheets available for free at <http://developer.toradex.com>

High CPU and graphic performance
with minimum power consumption.
