

Clean, Protect, Lubricate

Electrolube's wide range of high performance chemicals are used extensively by international electronics and manufacturing industries.

Electrolube products are specified and widely used for the manufacture and maintenance of electrical and electronic components and assemblies in various markets including automotive, aerospace, marine, medical, industrial and consumer electronics.

Conformal Coatings

DCA – SCC3 Conformal Coating

UL approved protection for PCB's from Chemicals & Solvents.

APL – Acrylic Protective Lacquer

Excellent temperature range and UV traceable.

Potting Resins

For Potting... PCB's, Power Supplies, LED Drivers, DC-DC converters.

ER2220- Higher Thermally Conductive Epoxy Resin

UR5097 – Thermally Conductive Polyurethane Resin, Flame Retardant

Thermal Management

HTSP: Ultimate Thermal Conductive Paste

Providing 3W/m.K and temp range of -50 to 200 °C.

TCOR – Thermally Conductive Oxime RTV

A single part RTV which provides a high degree of thermal conductivity.

Contact Lubricants

CG60 – Contact Grease

Excellent mechanical resistance and plastics compatibility. Extends switch life. UV traceable.
