

ROHM Semiconductor presents broad lineup for various applications

ROHM offers a wide lineup of products. Beginning in 1954 with resistors, ROHM branched out to ICs, discretes /passives, modules, LEDs, and more and continues to develop new products that meet market needs. Custom products are available as well that can be optimized for virtually any applications.

Automotive

High Reliability by Advanced Manufacturing Techniques with Comprehensive Quality Control.

Serial EEPROMs,
OP-Amps / Comparators,
Voltage Detectors

Car Audio ICs

Power Management
ICs

Industrial Equipment

High Efficiency in Power-conversion and Power-saving for Generation-systems & Power-supplies.

SiC Power Modules

Chipset for
Embedded Systems

High-voltage
Power MOSFETs

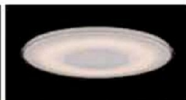

Seam-less lighting LED Lamps

LED Down Light

Straight-Tube LED Lamps

LED Lighting Solution

From Chip-LEDs to LED-lighting Lamps.
Opto-technologies for Longer Lifetime and Eco-friendly.

LED Driver ICs

Chip LEDs

LED Dot Matrix Units

ICs

Discretes
(Transistors, Diodes)

Opto Electronics

Passive Devices

Modules

LED Lighting

**Electronics
For You expo**
2013

Visit ROHM at 'Electronics For You Expo-2013'
Date: 21 to 23 February, 2013
Location: Pragati Maidan, New Delhi
Hall : 7D / Booth No. A4

ROHM Semiconductor India Pvt. Ltd.
