

Learning should not end when the class ends.

Presenting Sciencetech Open Learning System

Give your institution the world class advantage of 24x7 blended learning, benefiting students, teachers and management.

The Sciencetech Open Learning System (OLS) includes **Digital Class Rooms** with Digital Content for various engineering subjects. It also enables faculties to develop their own content. **e-Gyankosh** is a reference library for students on various subjects. **Student Response System** assists faculty to monitor individual and group response in class evaluations.

Sciencetech 'Splash' College Management System is an ERP Software where each and every activity of College can be mapped and monitored. It also gives flexibility to extend the facilities for 24 X 7 hours and parents can see the progress of their ward, student can see the class notes, they can submit their assignments etc.

An innovative **Mobile Learning System** with Subject Content helps student to learn subject at their creative best time. Unique and user friendly **Laboratory products** gives freedom to do hands on to make them familiar with the practical World.
