SmartEco technology for BenQ projectors

BenQ has unveiled SmartEco technology that combines energy efficiency with optimised image contrast for a longer lamp life of projectors. It dynamically adjusts the lamp power to different brightness settings based on the projected content. The projector compensates for this process with an internal software solution that maintains the ideal colour spectrum and also provides an improved contrast ratio.

HISTORY channel now on Mobile TV

HISTORY channel, which debuted its India edition on October 9, 2011, is now available on the mobile platform. The channel will be streamed live as well as on-demand on GPRS-enabled mobile phones. This service is available via Mobile TV across all leading mobile operators.

Nokia's digital rights management-free music service

A digital rights management (DRM)-free legal music service is now available on the newly introduced Nokia feature phones—X2-02, Asha 200 and Asha 300—through Nokia Music Store. The Nokia Music Unlimited Service comes packed with features such as DRM-free tracks, pre-activation (on the device), easy browsing, download and renewal through the device itself.

Vodafone's 'START STOP' service

Vodafone customers can now subscribe/unsubscribe to popular value-added service (VAS) products by messaging START for activating the service and STOP for deactivating the service. Instead of remembering multiple codes, customers can subscribe/unsubscribe to most VAS products by messaging to 321. Under this service, Vodafone VAS products are available in categories like Astro & Devotional, Music & Movies, Entertainment, Info & Utilities and Sports.

Tablet With SIM Call Function

Beetel's Magiq Glide with SIM calling function runs on Android 2.2 Froyo platform

Price: ₹ 11,999

Beetel Teletech has launched the Magiq Glide tablet that runs on Android 2.2 Froyo platform. The tablet

features a capacitive 17.8cm (7-inch) WVGA touchscreen, 2-megapixel front and rear cameras, SIM calling, and 8GB internal memory, which is expandable to 16 GB.

The tablet comes with a 2200mAh battery and supports 802.11 b/g/n

WiFi and 3G connectivity. It is powered by a 1GHz processor for faster processing speed.

Volume-Controlling Headsets

The Series 2 Bluetooth headsets from Bose let you hear calls better, even as noise levels change

The Bose Bluetooth headset Series 2 meets the demands of on-the-go communications, from crowded terminals to noisy traffic. It automatically adjusts volume depending on the surrounding noise. So a constant listening level is maintained as you move between quiet and loud environments. Plus, a noise-rejecting microphone system helps your caller better hear

you—in windy and noisy environments too. The headsets are compact and light, and come in right- and left-ear versions.

Answer/end call button makes it easy to answer and end calls with a simple pinch that won't dislodge the headset. The rechargeable lithium-ion battery provides 4.5 hours of talk time and 100 hours of standby time per charge.
