

Do-It-Yourself Repair and Troubleshooting

Here is a collection of some really good websites that teach you how to easily fix consumer electronics and IT hardware problems

FRG.com

FRG.com or Fast Repair Guide provides repair and troubleshooting information for devices ranging from LCD monitors and computers' motherboard to inverters and printers. A comprehensive resource with a database of useful articles and repair guides, it also provides links to electronics projects and components' datasheets. It has about 13,215 users in its online community, and is one of the most popular websites in the city of Ipoh according to Alexa.com, with maximum search queries related to LCD and plasma TV repair.

www.electronicrepairguide.com

Electronic Repair Guide

This site teaches electronics repair in an easy way. Started in November 2006 by a Malaysian repair technician, it helps shorten the fairly steep learning curve for those who are new to the repair field. Apart from repair of devices like LCD monitor, printer, CRT TV, LCD TV and plasma TV, the site also features electronic components testing, basics of electronics, technical jokes and technical courses.

Sci.Electronics.Repair

This is a collection of online documents called the Sci.Electronics.Repair (S.E.R) FAQ, providing information on a variety of topics including consumer electronics repair, general electronics, lasers and optics. It has been developed for the hobbyists, tinkerers, engineers, weekend mechanics and everyone interested in electronics.

www.laptop-repair.info

FRC TECH

Laptop repair isn't as hard as the guys down the repair shop would have you believe. Here is a site that gives you step-by-step instructions for replacing components, photos for jobs that are specific to a particular make of machine, guides to help you troubleshoot problems on your notebook, fixes for commonly encountered issues on different makes of machines and lots of good laptop repair info!

FixYa

In 2005, too many product manufacturers were neglecting post-purchase customer support. Frustrated by the lack of practical post-purchase information, entrepreneur Yaniv Bensadon set out to build a community resource capable of providing relevant and up-to-date troubleshooting data. Today, FixYa continues to empower individuals to repair and improve upon their already-purchased possessions. From fixing cars to cameras and iPhones, FixYans are part of a DIY revolution that helps empower techies, tinkerers and hobbyists across the globe.
